LUCAS HUGDAHL

Full Stack Web Developer / UI Designer

EXPERIENCE

FRONT END DEVELOPER, INDIGO SLATE – 2018-PRESENT

- Develop pixel perfect client facing pages from complex design comps.
- Utilize Vue.js, Angular.js, jQuery, Rivets.js, Bootsrap, MWF, SCSS, CMSs, Node.js APIs, Webpack, and Gulp to develop a variety of web apps and pages for large clients such as Microsoft and Sony.
- Assist a team of developers and abide by a task oriented structure.
- Craft project estimates for clients and contribute feedback regarding the technology strategy of each deliverable.

FRONT END DEVELOPER, M2 INFORMATION SYSTEMS – 2017-2018

Developed and maintained a HIPAA compliant application (MBMD) used for secure messaging and data-transfer within the medical industry.

MUSIC AND MEDIA DIRECTOR, TRINITY PRESBYTERIAN – 2013–2018

Managed the technology, presentation software, visual production, and praise band for Trinity Presbyterian Church.

TECHNICAL SUPPORT ENGINEER, DEPI – 2016-2017

- Managed the technical support for Homenet car inventory software.
- Worked alongside web developers and owners of car dealerships to ensure our imports and exports are feeding and polling data from the correct sources.
- Designed graphics to be placed on vehicle advertisements.

FREELANCE PHOTOGRAPHY & WEB DEV, SELF –- 2013-PRESENT

- Developed my own CMS for client use.
- Developed project boiler plates for any occasion.
